The machine can greatly improve the quality of the fruits and vegetables because of the accuracy in sorting of the fruit. Material can be fully stainless steel or painted steel

Features :-

- ★ Inspection conveyor belt is made of food-grade material.
- ★ Minimize the damage to fruits.
- ★ Low power consumption, low noise, flexible movement, convenient maintenance.
- ★ Sorting speed, grading size can be adjusted according to the raw material.
- ★ Blower used to separate blueberries that are stacked together.
- ★ Inspection conveyor belt can also be customized according to your requirement.
- ★ Stainless Steel of machine has CE mark.

## WEIGHT BASE GRADING

Backed with the team of highly qualified professionals, we offer The Fruits & Vegetables Grading Machine to our esteemed customers. It is available in semiautomatic and automatic form and can be customized as per the requirement of the clients. These machines are fabricated using raw material of fine quality that is being sourced from trusted and reliable dealers

### Advantages :-

- ★ Corrosion resistant
- ★ Available in different specifications
- ★ Affordable

## ORANGE/KINNU WAXING & GRADING PLANT

Backed with the team of highly qualified professionals, we offer The Fruits & Vegetables Grading Machine to our esteemed customers. It is available in semiautomatic and automatic form and can be customized as per the requirement of the clients. These machines are fabricated using raw material of fine quality that is being sourced from trusted and reliable dealers

### **Advantages :-**

- ★ Corrosion resistant
- ★ Available in different specifications
- ★ Affordable
